

# Michigan Foster Care Agencies by County

The Foster Care Navigator program (Regions 1,4 & 5) is operated by Judson Center and funded by the Michigan Department of Health and Human Services.

**Attached is a listing of agencies in the State of Michigan, who license foster families. It is common practice for agencies to license families in neighboring counties and much further away from the physical location of their office. Please contact the agency of your interest for more information. Please keep in mind, not all agencies are alike and all agencies have their own policies and procedures to be aware of when selecting a licensing agency.**

## **Definitions:**

### **A public agency**

A public agency is the Michigan Department of Health and Human Services, who is a principal department of state of Michigan, headquartered in Lansing, and provides public assistance, child and family welfare services (foster care licensing), and oversees health policy and management. The agency does not handle the particulars of adoption matters but refers the process (case file) to a private agency for handling and conclusion.

### **A private agency**

A private agency is also known as Child Placement Agencies (CPA), private foster care agencies work with the State to place kids in safe, loving, homes. These agencies can be for-profit, or nonprofit, but all must work with the State in order to license foster homes

### **A faith-based private agency**

A faith-based agency utilizes their faith communities to network, along with their partnership with state child welfare agencies to bring forth individuals interested in fostering/adopting.
